

For us, printing is a result of technical abilities and experience. We are constantly developing ourselves in order for advertising industry to have a solid partner for creative ideas implementation. For us, being an advisor is as important as being a learner which allows us to develop and stay current with trends and solutions in the printing industry. Clonex has been created to support for our customers which allows us to achieve more.

Clonex Team.

At Clonex, we believe that visual communication is the first way of interaction with customers. Our longstanding experience and state-of-the-art technology investments allow us to supply most excellent and modern solutions for digital printing, display and design as well as textile solutions. Reliability and punctuality are a part of our trademark confirmed by customers throughout Europe.

About Us

Clonex has almost 20 years of experience in creating visual communication systems for both national and international customers. Our main areas are solvent printing, large and small format printing, eco-solvent, UV and dye sublimation printing. Among our machines one can find not only plotters for large format printing, finishing, sewing and printing machines but also assembly teams, transport fleet and DTP studio (along with modern software of file verification).

After many years of experience in printing industry we diversify ourselves into CLONEX LARGE FORMAT (Outdoor, Indoor, Home Decor) and CLONEX TEXTILE (dye sublimation). Thanks to innovative softwares implemented at production to support and monitor the process we are constantly developing our service.

Our offer is addressed mainly to advertising, media and event agencies, outdoor media and sport agencies but also shopping malls, banks, theaters, clothing manufactures and architects. At the same time we also support small and medium enterprises. With the involvement and commitment of sales and customer service team, employees at production, logisticians and quality controllers, Clonex is able to provide you with the highest quality services at the most sophisticated concepts of customers.

Outdoor & Indoor

Investing in the most modern technologies, together with specialized and experienced team of employees, we support our national and international customers at the most complex and large projects. We supply not only high quality prints for indoor, offices, shopping malls, banks, shops but also premium products for exclusive interior decoration.

Textiles

We print on white polyester fabrics with dye sublimation method - characterized by high quality, intense colors and mechanical damage resistance. It is ecological printing, safe for the environment.

Facility Branding

Since information and navigation purposes for advertising is important not only for airports and large commercial facilities but also any gathering places, Clonex brands such objects taking care of all the details concerning external signs, boards, also illuminated and placed on glass ones. Well branded facility is definitely more visually appealing.

Illuminated Advertising

We produce various types of light boxes, wrappers, pylons, spatial letters, advertising constructions of any size and shape.

Sport Events

Due to the large exposure and media involvement, sport events create an excellent possibility to form a brand image. Regardless the size and scope of the event there are many media of different size and shape allowing the creativity at presenting the brand. Events create new and direct experiences between customers and the brand in a friendly environment.

Elegant Frames

We offer modern and elegant frame systems for printed fabrics which function as an advertising medium as well as interior decoration element. This system replaces traditional posters, transparencies and vinyl backlights. The main features which capture customer's attention are high quality, ease of replacement, creative solutions and original design possibilities.

Flat Printing

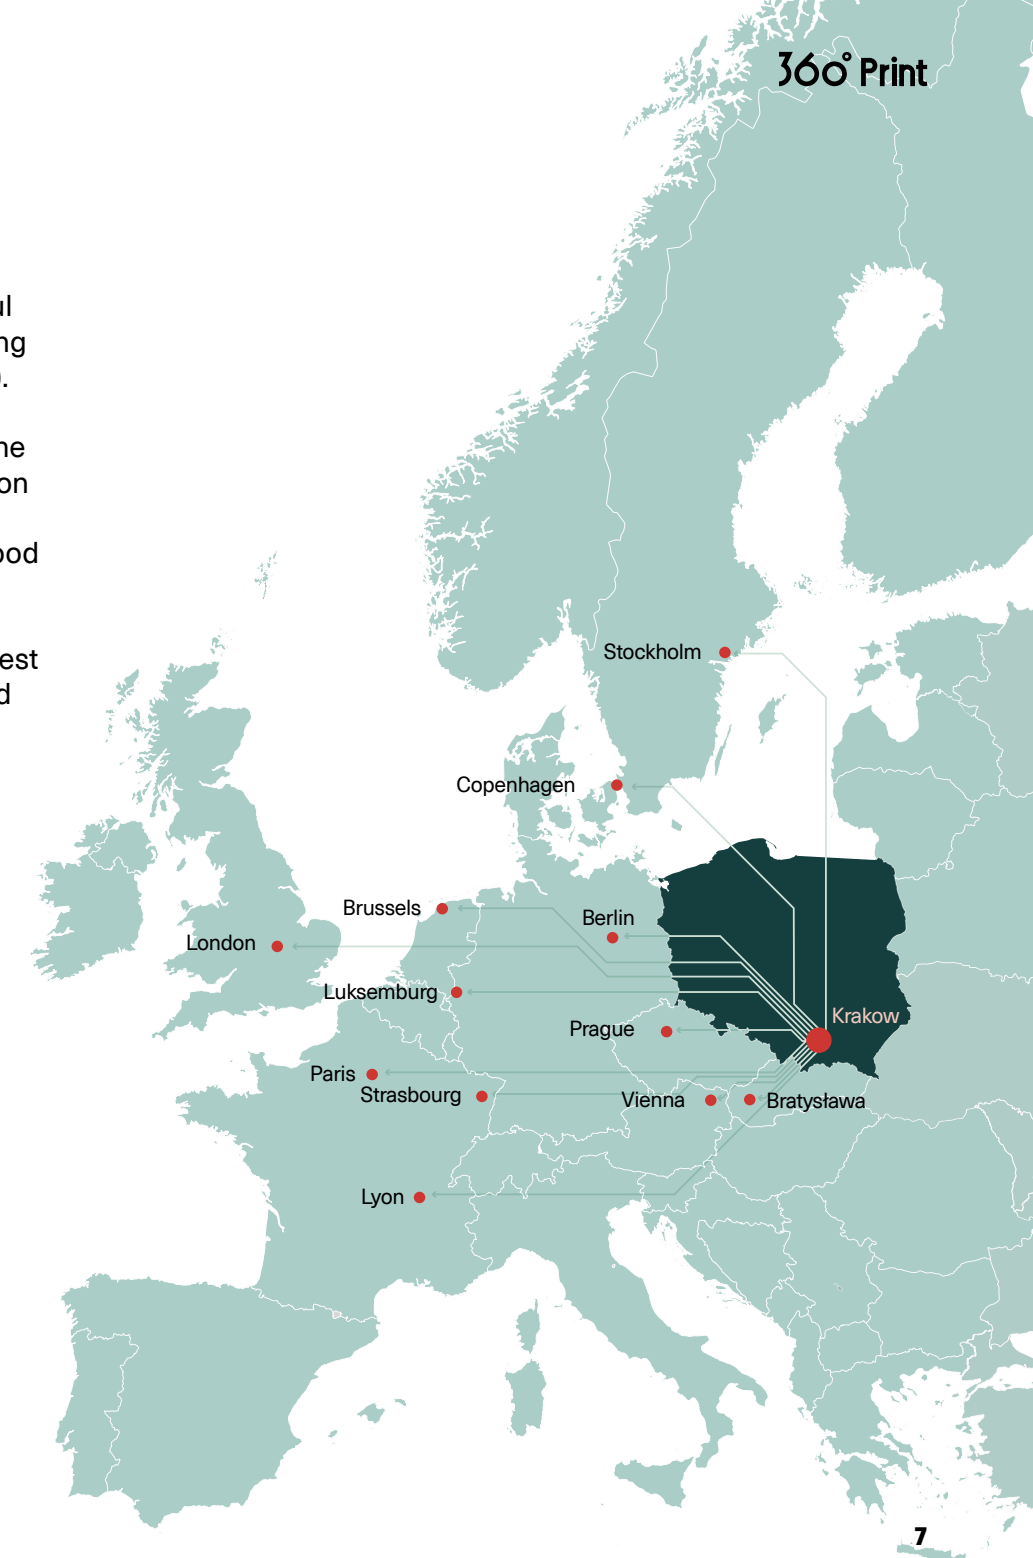

Direct flat printing on PVC, cardboard, dibound, etc. not only provides a high quality product but also allows to eliminate additional work concerning vinyl application.

Options:

- Contour cut at almost any shape
- White ink printing

Location

Cracow is one of the most beautiful cities in the world (120th - according to the Economist Intelligence Unit). It is the capital of Lesser Poland, located in the south, constitutes one of the most popular tourist attraction in Europe and around the world. The location of Cracow is a very good logistic base for all of Europe. It is an administrative, cultural, tourist, scientific center, the country's largest market of modern office space, and one of the key roads and railway junctions in Poland. Balice is the second largest Polish airport of international importance. We are also located 100km from Katowice International Airport.

Vehicle Branding

Car fleet constitutes a mobile image of a company often visible in many different contexts. Vehicle branding should be tailored to the character of the specific brand. Developing technology in this field enables not only to change the color of the vehicle but also to brand it fully. Clonex offers vehicle branding from the very idea, project and dimensioning to the printing and assembly.
